GRIFFON MULTI NOZZLE BLACK

SPECIAL BLACK NOZZLE WITH FOUR OUTLET OPENINGS & GUIDING PIN

PRODUCT DESCRIPTION

Special nozzle with four individually cuttable outlet openings and practical lateral guiding pin. Black in colour. Ideally suitable for the application of GRIFFON PANEL MAX mounting adhesives.

FIELD OF APPLICATION

Nozzle for applying up to four thin, parallel beads of adhesive to a wide variety of surfaces. Ideal for larger surfaces and for applications where adhesive or sealant is to be applied along longer edges, e.g. when bonding panels, skirting boards or finishing strips.

PROPERTIES

- Number and position of the outlet openings can be selected according to requirements
- Total width of the nozzle is approx. 80 mm
- The removable guiding pin allows very precise and efficient application along edges
- Suitable for all 1K cartridges with S15 standard coarse thread

APPLICATION

Directions for use:
Depending on requirements, cut the desired number of outlet openings with a cutter knife. If not required, the guiding pin can also be removed with a cutter knife. 2. Screw the nozzle onto the open cartridge and insert it into the cartridge gun. (Note: Some cartridge guns require the nozzle to be screwed on after the cartridge has been inserted). 3. Discharge adhesive until adhesive emerges from all openings. 4. Apply to the surface to be bonded.
Points of attention: The distance between the individual openings is 20mm and between the guiding pin and the first opening 10mm;
